LETTER FROM THE PRESIDENT

Dr. Imran Qureshi
President

Dear Members, Donors, and Volunteers,
Assalaamu Alaykum,

On behalf of the millions of people who have benefited from IMANA's services over the last decade, we say thank you. It was because of your many contributions of time, talent, and treasure that IMANA and IMANA Medical Relief were able to accomplish what has been done, and we pray that Allah blesses you and your family with the best of the blessings and rewards.

As we close out 2017 and look forward to 2018, we wanted to outline what your generosity has accomplished.

Because of you, our member focused activities continue to grow. IMANA is accredited with commendation by ACCME for CMEs. We are recognized for our work by the American College of Physicians, the United Nations, the State Department and the Federation of Islamic Medical Associations. We have seen a 21% increase in the activities and services provided by IMANA Medical Relief (IMR). Changes in healthcare provisions in the US are negatively impacting both underserved and Muslim communities, and with your help we would like to engage more both here and abroad. If you have interest or know of anyone interested in volunteering for domestic projects please contact us using the information provided on the web site.

IMANA Executives, Board Members, and Staff continue to dedicate their best efforts to further the vision & mission of IMANA. We are also committed to transparency and professional standards expected from a service oriented Muslim organization. An independent CPA audit of our finances is included. Our overheads are on the lower end of the industry standards. This is made possible by our volunteer board members and executives who cover for their own travel and lodging expenses as a way to keep administrative expenses down. May Allah reward them generously for their sacrifices.

And finally, we report a leadership transition underway at IMANA. Responding to new opportunities our Executive Director, Mr. Rasheed Ahmed is moving on after 9 amazing years of service. Please join us in thanking him for his excellent service, and in wishing him every blessing for the future.

"I am so grateful of my time with IMANA, I enjoyed every moment of it and I wish nothing but the best for IMANA. IMANA staff is set up for a bright future the proper people are in place to take IMANA to new heights."
- Rasheed Ahmed

We also wanted to report that Jessica Censotti has left our employ recently. Jessica came to IMANA in 2012 and has been invaluable in helping IMANA in improving its corporate image, marketing, and keeping us well informed of how our resources are being put to good use. We thank her for her service and wish her well in her next professional endeavors.

As part of this time of transition the board of IMANA has secured a 20+ year nonprofit professional, Dr. Richard Klopp, who has led many successful organizations including several leadership transitions such as this one. Back in May 2017, Dr. Klopp (Lilly School of Philanthropy, Indiana University) was engaged to facilitate the IMANA board's strategic planning for its next 50 years of service, and so he is not an unfamiliar face to IMANA leadership. He will be with us for a few months to guide us through the transition as we identify and onboard the next Executive Director. You will be hearing more about this as it unfolds.

There is so much to do and we look forward with anticipation to 2018! We are confident that with your prayers and support we will be able to impact even more lives, inshaAllah.

IMANA 50TH ANNIVERSARY GALA

Serving Faith, Profession, and the Community

On Saturday, October 14, 2017, family members, friends, and loved ones of IMANA supporters along with twenty-three former presidents of IMANA gathered together to celebrate IMANA's 50th Anniversary with a Gala dinner in Hyatt Regency in Reston, VA. The evening highlighted IMANA's accomplishments driven by IMANA's vision articulated a half a century ago. An audience of 380 guests learned the contributions of IMANA to the American society and its impact across the globe.

IMANA past presidents

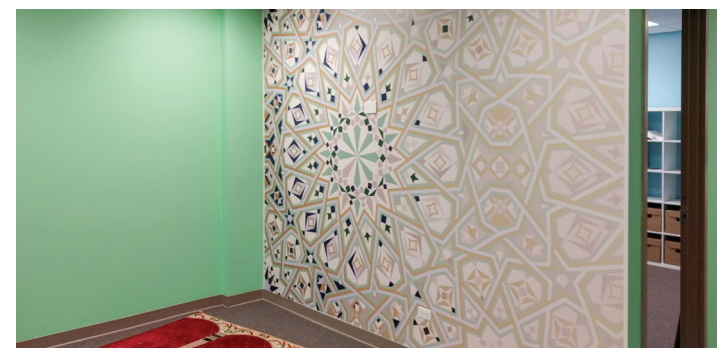

We were delighted to host Ambassador Attallah Shabazz, daughter of Malcolm X, as the keynote speaker and introduced Lonnie Ali, wife of the legendary Muhammad Ali. The IMANA lifetime achievement award was given to Muhammad Ali posthumously, for his work towards the clinical care, rehabilitation, education, and support of patients with Parkinson's disease. After accepting the award, Lonnie Ali spoke about Muhammad Ali's dedication to service and passion for justice and his exemplary life that left

a deep and wide impact around the world. All the IMANA former presidents present were acknowledged with an award for their leadership and service. The silent auction of the outstanding artworks from Eye for Art was well received. Mo Amer concluded the night with his humor and wit. The IMANA 50th Anniversary Gala dinner was a night to remember and a delightful celebration of the half-century of Serving Faith, Profession and the Community by American Muslim healthcare professionals.

HEADQUARTERS REMODELED

IMANA HQ got remodeled this year to bring it in line with contemporary and modern office designs. The new layout was designed to give us the capability to host local meetings and CME in the office. IMANA held a meeting at the HQ on 'Three Steps to Increase Revenue at Medical Practice'. Mr. Tim Tobbin was the speaker and the lecture was very educative for the audience. The Strategic Planning retreat was also conducted at this new office. IMANA also purchased an additional condo in the same building to cater to future growth of the organization.

IMR OFFICIALLY OPENS UP AN OFFICE IN D.C.

A new office has been established for IMANA Medical Relief in Washington, D.C.; it is located in Fairfax, VA which is a suburb of the capital city. This office will primarily oversee all our medical relief work.

This marks the beginning of a new chapter for IMANA, which has its headquarters in Chicago and will now have a presence in the nation's capital also. IMANA Medical Relief Coordinator, Zahid Mahmood, will manage and run the office.

IMANA COUNCIL MEETING

IMANA had a Council meeting in Long Island NY. The meeting was attended by the Chairman and President of IMANA. Meeting was held to discuss future plans of IMANA and the health of the organization.

IMANA STRATEGIC PLANNING

In this 50th year, IMANA leadership and staff held a strategic retreat to introspect and brainstorm as part of our planning for the coming years. A social change professional and strategic planning consultant facilitated the retreat. We recommitted to improve and expand services to our membership. We also learned that our members are more interested in serving society at large in U.S. and abroad than being served. IMANA Medical Relief (IMR) is becoming a service to our members and non-members alike. IMR is also exploring potential US-based gaps in the healthcare space in order to contribute.

Left to right front row: Prof. Faroque Khan, Past President • Dr. Marium Hussain, Resident and Student Committee Chair
 Dr. Khalique Zahir, Chairman Board of Regents, Past president • Dr. Hussain Nagamia, IIIM Chair, Past President
 Dr. Nabile Safdar, Vice-President.

INDEPENDENT AUDITOR'S REPORT

To The Board of Directors
Islamic Medical Association of North America
Lombard, Illinois

We have audited the accompanying financial statements of Islamic Medical Association of North America (the Association) which comprise the statement of financial position as of December 31, 2016, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Islamic Medical Association of North America as of December 31, 2016, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.
