mission

IMANA fosters health promotion, disease prevention, and health maintenance in communities around the world through direct patient care, health programs, and advocacy.

vision

IMANA's vision of positively impacting the health of humanity is evidenced by its integrated programs, with a major emphasis on global medical relief.

letter from the president

Syed Rahman, M.D.
President

Continuing to Serve Humanity with Compassion

Assalamu Alaikum (Greetings of Peace),

Alhamdulillah, it is my privilege to share IMANA's 2025 Annual Report with you. As we reflect on another year of service, I am filled with gratitude for Allah's countless blessings and for every volunteer, donor, partner, and supporter who continues to make IMANA's mission possible. Your compassion and generosity have enabled us to bring hope and healing to communities facing some of the world's greatest healthcare challenges.

Throughout 2025, we witnessed the power of collaboration and service. Our volunteers responded to humanitarian crises, cared for patients through medical and surgical missions, and sustainable health programs, and worked alongside local partners to strengthen healthcare systems that will continue serving communities long after our teams return home. At the same time, we invested in the future through scholarships, mentorship, and medical education, helping prepare the next generation of compassionate healthcare professionals.

One of IMANA's greatest strengths is our commitment to serving not only in moments of crisis, but also in building lasting solutions. Whether supporting community health clinics, expanding access to specialized care, strengthening partnerships, or equipping local healthcare providers through training and education, we remain focused on creating sustainable impact.

We recognize that meaningful change is achieved through long-term commitment, collaboration, and a shared vision of healthier communities.

As we look ahead, our commitment remains as strong as ever. We will continue to expand access to quality healthcare, strengthen partnerships, invest in education, and respond wherever the need is greatest. Guided by our faith and united by our shared purpose, we are confident that, together, we can continue bringing hope, healing, and dignity to communities around the world.

While the needs around the world continue to grow, so does our resolve. Every patient treated, every partnership strengthened, and every student supported reflects our shared belief that quality healthcare is a blessing that should be accessible to all.

This annual report is more than a summary of the past year. It is a reflection of what we can accomplish together through faith, service, and compassion. On behalf of IMANA, thank you for your trust and continued support. We pray that Allah accepts our efforts, blesses all those who make this work possible, and allows us to continue serving humanity with excellence in the years ahead.

Together we serve. Together we heal!

PAST PROJECTS

Strengthening Bonds

Sudan Roundtable

IMANA participated in a roundtable convening NGOs engaged in, or exploring, humanitarian and medical relief efforts for Sudan. The discussion was led by Sudan's Minister of Health, the Sudanese Ambassador to the United States, and members of their teams, who outlined urgent needs and priority areas for support.

Islamic Relief-UNHCR Roundtable

IMANA was represented at a high-level roundtable hosted at Islamic Relief's headquarters in Alexandria, Virginia, which brought together leaders from faith-based non-profits to discuss pressing humanitarian challenges and opportunities for collaboration. The event featured remarks from the outgoing United Nations High Commissioner for Refugees, Filippo Grandi, who shared insights on the global refugee crisis and underscored the critical role that faith-based organizations play in delivering aid and advocating for vulnerable populations.

Voice of Islam Radio UK

Dr. Azeem Elahi, an IMANA board member and a volunteer in the 2024 Gaza deployment, shared his first-hand experiences providing medical care to injured Palestinians during interviews with UK radio hosts. Drawing on his time in the field, he offered insight into the humanitarian conditions in Gaza and highlighted the critical needs facing both patients and healthcare providers in the region.

Partner Meetings at HQ

AMT: IMANA's operations staff met with leadership from Al-Mustafa Trust (AMT) to review ongoing collaborative efforts and explore opportunities for future partnership. The discussion focused on strengthening existing initiatives while identifying new areas where the organizations can work together to expand their medical impact.

Emergency Project: The CEO of Emergency Project, accompanied by members of the organization, visited IMANA headquarters for a series of strategic discussions. Conversations focused on planning for 2026, identifying opportunities for expanded collaboration, and sharing insights on current initiatives.

Partner Fundraisers

IMANA's partner organizations in Pakistan (CDRS) and Bangladesh (BDesh) held their annual fundraising dinners in the national capital region, attended by IMANA's Operations Director. At both events, IMANA's collaborative efforts were prominently recognized and appreciated.

Specialty Dinners

Ophthalmology Dinner

(October 18 in Orlando, FL)

The dinner brought together ophthalmologists from across the country for a chance to build lasting connections, exchange ideas, and strengthen a community committed to advancing eye health worldwide.

Radiology Dinner

(December 2 in Chicago, IL)

Bringing together radiologists from across the nation, this annual dinner provided an opportunity for health-care professionals to network and exchange insights on the latest advancements in diagnostic imaging technologies and clinical practices.

Collaborating and Growing

Through networking, IMANA continues to forge meaningful connections and strengthen relationships at every level - whether for individuals or healthcare organizations. This year, we actively hosted and engaged in events across the nation and beyond.

Mid-Atlantic VOAD Conference

March 30-April 1 in Berkeley Springs, WV

IMANA participated in the Mid-Atlantic VOAD Conference, held with FEMA Region III under the theme “Beyond Band-Aids: Dismantling Systemic Inequities that Fuel Disaster Vulnerability.” Discussions emphasized intentional action and self-awareness in addressing biases to advance more equitable disaster relief and recovery for all communities.

Annual Convening of Humanitarian CEOs

April 17-21, Cordoba Spain

IMANA Executive Director Nida Saleem attended the Annual Convening of Humanitarian CEOs, joining fellow humanitarian leaders for meaningful dialogue, shared learning, and collaboration. The gathering provided an opportunity to strengthen relationships and explore collective approaches to advancing humanitarian service and global impact.

NVOAD Conference

May 19-22 in Louisville, KY

An IMANA representative also attended the 2025 National VOAD Convention, themed “Going the Distance.” The event highlighted the sustained involvement, commitment, and perseverance of NGOs in disaster response and long-term recovery efforts. Workshop sessions and networking opportunities fostered new connections and partnerships that support IMANA’s mission of delivering accessible, high-quality healthcare in times of crisis.

InterAction Forum 2025

October 14 in Washington, DC

Our Executive Director and operations staff participated in the InterAction Forum 2025, which focused on the future of aid and development. Through keynote presentations and breakout sessions, the event fostered thoughtful dialogue and generated innovative solutions to address current global challenges.

our aspiration

To fulfill our mission and vision, IMANA continued delivering medical and surgical care, emergency relief, and sustainable healthcare programs to underserved communities worldwide. In 2025, our teams served patients across Pakistan, Jordan, Yemen, Bangladesh, Mauritania, and Guyana, while responding to humanitarian needs in Gaza, Syria, Lebanon, Sudan, Pakistan, and the United States.

Beyond our missions, we expanded long-term healthcare initiatives through clinics, cataract surgeries, maternal care, nutrition programs, medical training, and new projects in countries including Nepal, Somalia, and Kenya. In 2025 alone, IMANA's medical missions and healthcare projects provided essential care to more than 413,000 patients in 18 countries.

As needs continue to grow, so does our commitment. With the support of our volunteers, donors, and partners, we will continue expanding access to quality healthcare, strengthening communities, and bringing hope and healing wherever it is needed most.

Hope in Times of Crises

AidGaza

Our Bottles of Hope campaign provided vital nutritional support to infants and young children affected by the crisis in Gaza. Through this initiative, IMANA distributed 25,000 cans of baby formula to families struggling with access to essential nutrition. With severe shortages of food and medical supplies placing children at heightened risk of malnutrition, this program helped ensure vulnerable infants received the nourishment they needed during an increasingly challenging time.

AidLebanon

Following the humanitarian crisis in Lebanon, IMANA procured and airlifted five Interagency Emergency Health Kits (IEHKs) to Beirut to strengthen the country's strained healthcare system. The kits were received by the Lebanese Ministry of Public Health, which coordinated their distribution to public hospitals and medical centers across the country. By supplying essential medicines and medical supplies, IMANA helped healthcare providers continue delivering critical care to patients during a period of significant need.

AidUSA

Building on our disaster relief efforts from the previous year, IMANA continued supporting communities recovering from devastating storms in western North Carolina. An additional \$25,000 was provided to distribute winter kits, blankets, and groceries to 625 individuals and families facing ongoing hardship. Relief efforts also included the distribution of 100 general grocery boxes and 100 fresh produce boxes in Asheville, as well as 125 blankets and winter kits for residents in Hendersonville, helping families meet their basic needs during the winter months.

AidSyria

To help strengthen healthcare services in northern Syria, IMANA shipped 170 oxygen concentrators, valued at approximately \$150,000, to hospitals and medical centers serving vulnerable communities. These devices provide a reliable source of oxygen for patients with respiratory illnesses and other critical medical conditions, helping healthcare facilities continue delivering lifesaving care despite ongoing shortages of medical equipment caused by conflict and humanitarian instability.

AidSudan

As conflict continued to strain Sudan's healthcare infrastructure, IMANA funded the procurement and distribution of five Interagency Emergency Health Kits (IEHKs) to support healthcare facilities serving displaced and vulnerable populations. The supplies were distributed among 15 health facilities across the Red Sea, Port Sudan, Suakin, Kassala, and Khartoum regions, helping healthcare workers maintain access to essential medicines and medical supplies while responding to growing humanitarian needs.

AidPakistan

In response to urgent healthcare needs following the devastating floods in Pakistan, IMANA funded the procurement of essential medicines and medical supplies while partnering with local organizations to organize 44 emergency mobile medical camps across Khyber Pakhtunkhwa and Punjab. These outreach clinics delivered primary medical care and treatment to more than 2,800 patients, ensuring underserved communities had access to timely healthcare services and essential medications when they were needed most.

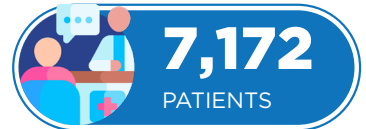

ServePakistan

MEDICAL MISSION

IMANA's medical missions continued to serve the rural community of Rahat Kot and its environs in Swat. Three volunteer teams, working alongside local physicians, provided free medical care and treatment to thousands of patients, sustaining ongoing access to essential healthcare services in the area.

mission total: **36,184 PATIENTS**

Launched in 2016

ServeSyria

MEDICAL MISSION

IMANA continued to provide free healthcare services to displaced and unregistered refugees, along with other underserved populations in Jordan. During the year, four volunteer medical teams traveled to Amman to support and deliver care to communities in and around the city.

mission total: **45,736 PATIENTS**

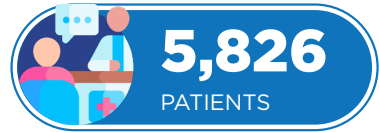

Launched in 2016

Our Missions

ServeYemen

MEDICAL MISSION

IMANA's work in Yemen continued throughout 2025, with a total of four medical teams - two composed of IMANA volunteers and two of local physicians - providing free healthcare services in camps in and around Aden.

mission total: **15,859 PATIENTS**

Launched in 2024

ServeRohingya

MEDICAL MISSION

One of IMANA's longest-standing initiatives - delivering medical care in Rohingya refugee camps - continued through 2025. This year our volunteer teams resumed travel to the camps, working alongside local physicians to address the healthcare needs of the refugees in the Cox's Bazar region of Bangladesh.

mission total: **444,957 PATIENTS**

Launched in 2017

ServeMauritania

MEDICAL MISSION

IMANA returned to Nouakchott, Mauritania, to continue addressing the region's high maternal and infant mortality rates. Over two weeks, a team of obstetrician-gynecologists and a pathologist conducted 268 screenings, performed specialized procedures, and identified patients requiring further treatment and follow-up.

mission total: **76 PATIENTS**

Launched in 2023

Our Missions

ServeSyria

CATARACT SURGICAL MISSION

A three-member volunteer team of ophthalmologists performed sight-restoring eye surgeries on Syrian refugees in Jordan. Their efforts helped restore vision for individuals who had suffered from visual impairment, bringing renewed independence, clarity, and hope.

mission total: **1,268 PATIENTS**

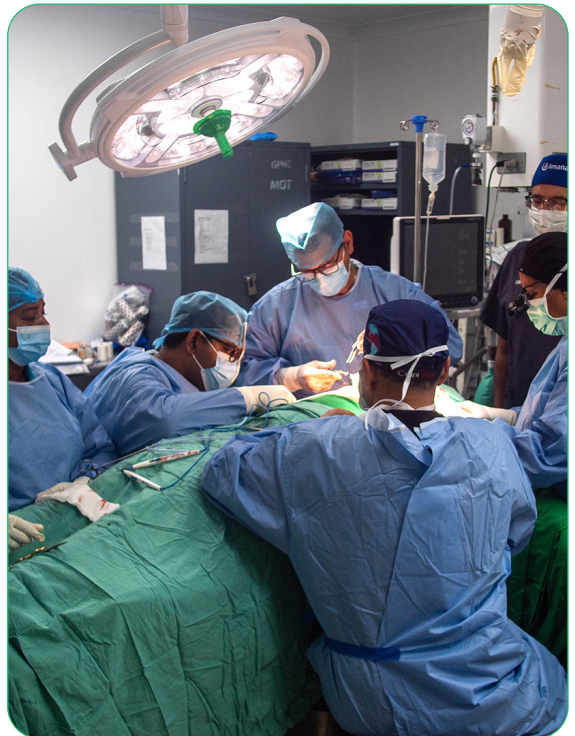

Launched in 2016

Our Missions

ServeGuyana

SURGICAL MISSION (NEW MISSION)

IMANA's ServeGuyana mission concluded with 24 life-changing surgeries, restoring health and hope to patients in need. Each procedure reflected the power of compassionate, specialized healthcare made possible through the dedication of our volunteers and the generosity of our supporters.

mission total: **24 PATIENTS**

Launched in 2025

Expanding Our Global Reach

Bangladesh

As travel resumed to the Rohingya refugee camps in Cox's Bazar for our volunteers, IMANA's Creative Director accompanied one of our mission teams to document the impact of our work and share the stories of the communities we serve.

Sri Lanka

IMANA's Creative Director also traveled to Sri Lanka to conduct a site visit at the Ummah Clinic and engage directly with project partners. The visit provided an opportunity to review ongoing activities, strengthen relationships with local collaborators, and gain firsthand insight into program implementation and impact on the ground.

Philippines

An IMANA volunteer made a site visit to the Philippines to assess the feasibility of future medical missions. During the visit, he gathered field observations and shared valuable insights regarding local needs, infrastructure, and operational considerations. IMANA is engaged in the evaluation process, including identifying potential local NGO partners and suitable locations to support effective and sustainable future programming.

Sustaining Health, Transforming Lives

INTERNATIONAL

Bangladesh

IMANA collaborated with the BDesh Foundation to deliver eye care services. During 2025, a total of 1,126 cataract procedures were performed, helping restore vision and improve the quality of life for patients in underserved communities.

India

IMANA-supported diabetic clinics and basic health centers provided essential healthcare in Hyderabad. During 2025, 113,928 patients received free medical treatment, supporting chronic condition management and improving access to primary healthcare across the communities served.

Kenya

Wheel Chair Production (New)

IMANA contributed \$25,000 towards the research, development, and establishment of a fabrication unit to produce affordable wheelchairs indigenously.

Healthcare Facility

Work was restarted on the Rahmah Medical Center facility in remote and rural village of Benane in Garissa County. Completion and inauguration were expected in early 2026.

Nepal (New Project)

A total of 2,437 patients were screened, and 370 cataract surgeries were performed at IMANA-supported mobile clinics in the Bhokraha region, helping restore vision and improve the quality of life for individuals with limited access to specialized ophthalmic care.

Pakistan

Primary Care Clinics

189,646 patients received free treatment at five IMANA-supported clinics

Eye Surgery Camps

39,818 patients were examined, 3,299 had cataract surgeries, and 1,732 had other minor procedures

Nutrition Project

This community-based program in rural Pakistan addresses malnutrition among infants, young children, and pregnant and lactating women through Community Health Workers. Services include

household screening, nutrition counseling, food and micro-nutrient support, government health referrals, follow-up, community engagement, and data-driven improvements. Over the past two years, more than 600 children have recovered from moderate malnutrition, contributing to a 45% reduction across communities.

POCUS Project

3-member IMANA team conducted a week-long training for ten junior local physicians on the use of POCUS equipment.

Somalia (New Project)

IMANA provided a \$36,500 grant to support life-saving pediatric cardiac surgeries for Somali children, covering travel and related expenses for specialized care overseas and ensuring children with critical heart conditions received timely treatment.

Uganda

Community Clinics

Three rural community healthcare clinics were conducted quarterly, where a total of 14,921 patients received free treatment.

(Continues on the next page)

Syria

IMANA-funded mobile clinics delivered essential healthcare services within internally displaced persons (IDP) camps in northern Syria. A total of 14,128 patients received medical care during 2025, helping to address urgent health needs among displaced and vulnerable populations with limited access to fixed healthcare facilities.

Turkiye

Prenatal Program

143 expectant Syrian refugee women were registered with IMANA's maternity care program for this year

Autism & Physiotherapy Program

286 Syrian refugee women and children registered for treatment and care

Sri Lanka

IMANA's Ummah Clinic in Athulugama continued to provide essential healthcare services to underserved communities. During 2025, the clinic delivered free medical treatment to 23,131 patients, significantly contributing to improved access to primary care and supporting the health needs of the local population.

DOMESTIC

IMANA provided first aid cover at four Islamic Games venues:

Dallas, TX: April 19-20

Metuchen, NJ: June 14-15

Brampton, ON: June 28-29

Chicago, IL: August 2

Nourishing Communities During Ramadan

IMANA's Ramadan Meals Program provided food assistance across multiple countries through partnerships with local organizations. We covered the cost for the program in Guyana, Cambodia, Uganda, Pakistan, and North Macedonia to support the distribution of food packages to vulnerable communities during the holy month.

Cambodia: 194 food packages were distributed across communities in Phnom Penh, Kandal, and Tbong Khmum provinces.

Guyana: 100 food packages were distributed in local communities east of the Demerara River and along the Soesdyke-Linden Highway.

North Macedonia: 80 food packages were distributed to local communities in the capital of North Macedonia, Skopje.

Pakistan: Community iftars were hosted across 16 village masajid in Sukkur. In addition, 120 households received food packages, along with supplementary food baskets provided to families enrolled in IMANA's Nutrition Project.

Uganda: 100 family food packages were distributed among Sudanese refugees in northern part of the country.

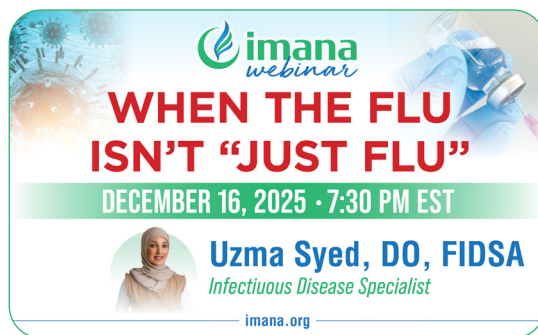

Advancing Knowledge, Improving Care

IMANA continued its commitment to advancing medical education by hosting a series of webinars featuring leading experts on timely healthcare topics. These virtual sessions provided physicians, trainees, and healthcare professionals with evidence-based insights and practical guidance to enhance patient care.

Seasonal Influenza

Dr. Uzma Syed discussed influenza trends, vaccine effectiveness, antiviral therapies, antimicrobial resistance, and prevention strategies, highlighting approaches healthcare professionals can use to reduce transmission, prevent severe illness, protect populations, and improve public health outcomes.

Empowering Minds, Advancing Medicine

IMANA's Mentorship Program continued to provide a valuable platform for professional growth, collaboration, and career development. By connecting experienced healthcare professionals with students and trainees, the program fostered meaningful relationships that support participants at every stage of their journey. In 2025, the program included 104 active mentorships, connecting 279 active mentees

with 56 dedicated mentors across a wide range of healthcare disciplines. To further strengthen engagement and communication, IMANA's Student-Resident Committee continued to utilize a dedicated WhatsApp Mentee Announcement Group, which grew to 50 members, serving as a central hub for sharing program updates, educational resources, and professional opportunities.

Providing \$47,200 in Scholarships

In 2025, IMANA's scholarship program continued to invest in the future of healthcare by supporting outstanding students who demonstrate academic excellence, leadership, and a commitment to serving their communities. IMANA awarded a total of 13 scholarships, including 7 IMANA-sponsored scholarships and 6 donor-sponsored scholarships, distributing \$47,200 in financial assistance to students pursuing careers across medicine, dentistry, pharmacy, allied health, and medical specialties.

Since the program's inception, IMANA has awarded 47 scholarships totaling \$188,200, reaffirming its long-standing commitment to empowering the next generation of compassionate healthcare professionals.

in delivering health care**

Thank you 2025 partners

Thank you

Thank you **2025** *supporters*

We're so very thankful for you, our supporters!

Thankful...you have enabled IMANA to serve humanity for almost sixty years.

Thankful...you shared the kind of generosity and critical support that rendered us speechless.

Thankful...you allowed us to continue reaching more people with health, hope, and lasting change.

It's our privilege to have your trust and confidence in delivering these services.

We couldn't have done it without you.

Thank you

IMANA endeavors to provide its members with tools to assist them in effectively managing their practices and wealth. IMANA is able to attain these financial services for our members at substantial discounts through our partnerships.

401(k) Plans

IMANA offers a 401(k) retirement program that has been custom-built for IMANA members. The Plan offers a wide range of investment options, including a number of Shariah-compliant funds.

Contributions are taken directly from employees' paychecks and employees can decide how much to contribute. The Plan offers competitive fees, comprehensive administrative and compliance services, and a high-touch service model to reduce the burden on members' Human Resources and Finance teams.

Cash Balance Plan

A Cash Balance plan is a trustee-directed defined benefit plan that specifies both the contribution to be credited to each participant and the investment earnings to be credited based on those contributions. Cash Balance plans are generally best suited for small businesses whose owners have contributed the maximum to their 401(k) Plan and are looking for additional tax-deferred savings opportunities.

Health Savings Accounts (HSA's)

An HSA is a tax-advantaged medical savings account paired with a qualified high deductible plan (HDHP) used to pay for qualified medical expenses. With the tax advantages of an HSA, contributions (employer and employee) are made pre-tax, earnings are tax-free, and distributions for eligible expenses are tax-free. Employees can save more money for retirement by investing in an HSA.
